WEATHER OF CONCERN

NORTHERN CALIFORNIA

- A strong, unseasonably cold weather system is expected to bring the first significant winter storm of the season to Northern California, impacting the area Tuesday through Thanksgiving.
- Hazardous travel conditions with major travel impacts are expected over mountain passes with this system, especially impacting holiday travel Tuesday night into Wednesday.
 - Blowing snow and significant reductions in visibility during this timeframe will lead to extremely hazardous driving conditions and travel is highly discouraged during this time.
- Temperatures will also be colder than normal beginning Tuesday and continuing through the week.
- Models indicate this system will move southeast from just off the western Canadian coast, deepening as it heads towards northern California on Tuesday.
- Precipitation is expected to begin on Tuesday afternoon, spreading southeast across the entire area by the evening hours.
- The low continues to strengthen Tuesday night which will lead to heavy rain and snow by Tuesday evening.
- Along with precipitation, models have trended significantly stronger with winds Tuesday night into late Wednesday morning across both the Valley and mountains.
 - Valley winds may gust as high as 45 mph during this initial push of the system.

SOUTHERN CALIFORNIA

- Winter Storm Warning in effect for the mountains and foothills.
- High Warning in effect from noon Monday to 0300 hours Tuesday for Santa Barbara County Mountains, Ventura County Mountains, and Los Angeles County Mountains.
 - North winds 25 to 35 mph with gusts up to 70 mph expected.
- A Flash Flood Watch remains in effect from late Tuesday night through Thursday evening.
 - Portions of southwest California, including Orange County, Coastal Areas, Orange County Inland Areas, San Bernardino, Riverside County Valleys, The Inland Empire, San Diego County Coastal Areas, San Diego County Valleys, Santa Ana Mountains, and Foothills.
- One to two inches of rain is forecast with localized amounts to three inches possible.
- Isolated thunderstorms are possible.
- Rainfall rates in excess of a half an inch per hour are possible in the heaviest showers and isolated thunderstorms, which could result in flash flooding.
- Locally heavy rainfall could produce flash flooding, with the greatest threat in steep terrain, especially in and below recently burned areas.
- Flooding of poorly drained and urban areas will also occur, presenting a hazard for motorists.

WEATHER KEY POINTS

11/24/19 - 11/30/19

Sunday-Monday

- High surf is expected across portions of Southern Region on Sunday, followed by even higher surf and the potential for minor coastal flooding Monday through Wednesday (primarily San Luis Obispo, Santa Barbara, and possibly Ventura counties)
- Light precipitation is possible across far northern California Sunday night into Monday, with no significant impacts expected.
- Increasing northeast winds and dry conditions across the state will bring elevated fire weather concerns Monday and Monday night

Tuesday-Saturday

- A large and cold storm system will move through the state Tuesday through Friday, likely bringing widespread precipitation and gusty winds
 - Holiday travel will be significantly impacted, including accumulating snow at most mountain passes
 - The most significant impacts will be Tuesday night into Wednesday across the northern Sierra, and Wednesday into Thursday across the southern Sierra and southern mountains
 - Lowest snow levels across the state generally expected to be 1500-2500 feet, though shorter periods of snow levels below 1000 feet are possible in the northern half of the state
 - Interstate 5 near Grapevine could be one of the areas impacted by accumulating snow Wednesday afternoon through Friday
 - Brief heavy rain could lead to flash flooding and burn scar impact concerns, especially in Southern Region; however, forecast rainfall amounts have trended a bit lower compared to earlier forecasts
 - Cold temperatures are expected with this storm, especially Wednesday night through Saturday, including the possibility of freezing temperatures in Coastal Region

OF EMERGENCY SERVICES

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2019-LAW-8037, 11/23/19, 2159 hours:** Amador Sheriff contacted CSWC to advise of a missing 31 year old female, last seen on 11/23/19 at 1045 hours in the Fiddletown area. Amador requesting Overhead Team, 40 Type-II ground searchers, 1-2 trailing and 1-2 area search dogs. Briefing location and time is Amador Fire Station #123, 14410 Jiboom St., Fiddletown, at 0800 hours. Amador also requested portable repeater from Cal OES. T-Comm, CARDA, Alpine, El Dorado, Calaveras, Placer, Sacramento Counties notified. **UPDATE, 11/24/19:** 1 T-Comm Assistant Chief responded to the ICP to provide a VTAC Repeater. **MISSION ONGOING.**
- **2019-LAW-7989, 11/20/19, 1208 hours:** Kern County Sheriff's Office (KCSO) requesting Cal OES mission number for an on-going search involving a missing and presumed drowned 11 year old female that was last seen in the Kern River near Keyesville this past June 2019. KCSO has coordinated the SAR Mutual Aid mission directly with CARDA for water HRD K-9 teams and support, which is scheduled for 11/23/19 with a 0700 briefing at the Kern Valley SAR hut. Cal OES LEB updated. **MISSION ONGOING.**
- **2019-LAW-6024, 11/18/19, 1515 hours:** Santa Barbara County Sheriff's Office (SBSO) requested a CaNG UH-60 helicopter (Los Alamitos) to assist with the replacement of critical LE/SAR communications repeater on Santa Cruz Island. All Region-1A helicopters were not available. Cal OES LEB Chief has approved the mission. CaNG JOC coordinating the request. **MISSION ONGOING.**

Cal OES MISSION TASKING
